

Taking ^{Pr}**Simlandi**TM on your travels

Remember to keep treatment in mind when you are planning a trip so that your Simlandi treatment can continue **exactly as directed by your doctor.**

Travel tips

- Make sure you have more Simlandi than you'll need to last your entire trip. Take an extra prescription in case you lose your medication or it becomes damaged.
- Make sure the injection schedule is marked on your calendar or programmed into your smartphone.
- **Included in your Welcome Kit**, you'll find a travel case, as well as travel cards that you can bring with you to explain your treatment.
- Simlandi should be stored in its carton in a refrigerator, but when you are travelling, it can stay at room temperature for up to 14 days.
 - Once it has come to room temperature, it must be used within 14 days, even if it is put back in the refrigerator. If not used within 14 days, it must be discarded.
- Simlandi should always be transported as carry-on and should not be checked with regular luggage when travelling.

If you have other questions about travelling with Simlandi or need to take advantage of the JAMP Care Travel Program, please reach out to our support team, at: jampcare@supportprogram.com, or call 1-855-310-5102.
